Ask your pharmacist.....

.....You'll be taking good advice.

Information:

For details of Sunday and Public Holiday Rotas see notices on our door, in surgeries and local press.

For emergency (urgent) dispensing at other times please call NHS Direct on 08454647.

We dispense both NHS and private prescriptions. While producing labels for dispensed medicines, our computer will also keep a record of the items dispensed. We can also record advice given on healthcare issues.

The pharmacist can tell you about medicines and how to use them safely and can talk to you in confidence about common illnesses and healthcare. In the pharmacy you will find leaflets on a variety of health topics.

We wish to thank the sponsors who helped to produce this card, however the accuracy of any statements cannot be warranted nor the endorsement of any product or service advertised be guaranteed.

We are pleased to offer you the following services:

- + Private consultation area
- + Free collection and delivery service by arrangement
- + Minor ailment scheme
- + Repeat prescription collection service
- + Supervised methadone dispensing
- + Truss fitting service by arrangement
- + Healthcare products and support for self-care
- + Pregnancy testing
- + Support for people with disabilities
- + Disposal of unwanted medicines
- + Service to care homes
- + Advice on healthy living and promotion of healthy life styles.

We aim to give the best possible service and always welcome your comments - if you are unhappy please tell us. Complaints about NHS services are also dealt with by the Local Primary Care Trust.

If you have a complaint ask for the manager.

We will collect your repeat prescriptions from your doctors surgery and if required deliver to your door... totally free of charge

Please complete a registration form available from pharmacy and return to your nearest branch.

Prescription Dosage Cassettes Filled

We can help patients who may find it difficult remembering to take medicines by providing a "Monitored Dosage Device". These are usually cassettes or cards filled with one week's supply of medicine, split into different times of the day for each day of the week. There is currently no charge for this service, but may need agreement from patient's doctor.

Emergency Hormonal Contraception (EHC).

Unfortunately the media gave it the misnomer 'morning after pill'. EHC is effective for up to 72 hours after unprotected sex. However its effectiveness does reduce over this time, so best used as soon as possible.

The provision of EHC can take place any time during opening hours. No appointment is necessary. Our pharmacy is included in a scheme called EC 72 which can provide this service free of charge to eligible women.

Our pharmacy staff will not judge people. We are committed to providing confidential help and advice. There will be occasions where we won't be able to help but we can advise where to get help.

Enhanced Services

Our pharmacy already meets and exceeds the essential service requirements of the new pharmacy contract, also providing a healthy selection of enhanced services. Our pharmacies will continue to focus on expansion of these services and development of new enhanced services.

We provide a confidential pregnancy testing service on the premises with results available in a matter of minutes. Appropriate advice and information can be given depending on the outcome.
